**The Mountain Lake Singers** will kick-off the entertainment portion of WoodsFest. This popular local group has been singing at church services and social events since the turn of the century. Their sing-along style suits all generations. The membership of the group has changed over the years but Lee, Dave and Kat remain the constant glue.

**Brian R. Cooney**, a singer songwriter from Baltimore, is a favorite at the Clubhouse Grille & Pub because of his unique combination of classic rock covers and original songs. While he considers rock legends to be among his primary influences, he is also inspired by more contemporary acts. The result is an easily accessible mix of classic folk and rock music with modern hooks.

**The Flashbacks** will provide three sets of Rock and Roll music through the decades from a wide variety of masters. Their music appeals to a very wide age group from young to old. The music is very lively, dance friendly and just toe-tappin' fun! Based in Berkeley Springs, band members Bob, Gordon, Angela, Mike and Dan are popular performers at area events and clubs.

**Local DJ Favorite, Dan Forte** will be providing tunes between performances and sets.
